RCom partners with HTC

Anil Ambani-led Reliance Communications said that it has entered into a partnership with Taiwanese mobile phone manufacturer HTC to develop and promote next generation CDMA devices for Indian consumers. The Taiwan-based mobile manufacturer also launched its CDMA smart phone Touch Diamond P3051 in the country, exclusively available for RCom customers, RCom said in a statement. The touch screen phone from HTC runs on Windows Mobile platform and responds perfectly to finger gestures when scrolling through contacts and browsing the web, the statement added.
